Shivam Kumar

AI & Data Science | Data Analyst
Bangalore, Karnataka | +91 7275041278 | shiviam02@gmail.com
linkedin.com | github.com

Summary

Data Analytics and Machine Learning specialist with hands-on experience in Python, SQL, Power BI, and predictive modeling. Skilled in data cleaning, exploratory data analysis, statistical analysis, and visualization to derive actionable insights, with additional experience developing AI-powered applications using LLMs and Generative AI.

Skills

- **Languages:** Python, SQL, Java, R
- **Tools:** Power BI, Excel, MySQL, Git, Scikit-learn
- **Concepts:** Data Analysis, EDA, Data Cleaning, Data Visualization, Machine Learning, RAG
- **Soft Skills:** Problem-Solving, Analytical Thinking, Team Leadership, Communication, Collaboration

Experience

IIT Indore – Intern **Jul 2026**
Application of Graphical Model | Python, Flask, Gemini, ChromaDB

- Developed a medical AI assistant providing healthcare information and symptom-based disease probability estimates.
- Enabled context-aware medical responses through knowledge retrieval and probabilistic disease prediction based on reported symptoms.

IIT Kanpur – Intern **Jun 2026**
Medical Chatbot | LLM, ChromaDB, Flask

- Developed a healthcare chatbot that answers medical queries using relevant knowledge, reducing reliance on generic responses.
- Improved response relevance by grounding generated answers in retrieved medical information.

Future Interns – Data Science & Analytics Intern **Nov 2025**

- Analyzed and prepared datasets to identify patterns, generate insights, and support data-driven decision-making.

Projects

MANGANEX: From Space to Mine | AI/ML, Python, GIS

- Proposed an AI/ML-based solution combining satellite imagery, geological data, and AI/ML-based geospatial analysis to identify potential manganese reserves, map promising exploration zones, and assess production shortfalls.

Medical Chatbot | LLM, ChromaDB & Flask

- Built an AI medical chatbot using Retrieval-Augmented Generation, vector database, and semantic search.

Prime Video Content Analytics Dashboard | Power BI

- Developed an interactive dashboard analyzing 9,651+ titles with KPIs and visualizations to identify content trends.

Achievements

- Selected for the SIH 2026 Internal Round, proposing an AI/ML and space technology-based solution to identify manganese reserves and address production shortfalls and led a team of 6 members.
- Selected for the SIH 2025 Internal Round, developed an Offline Face Recognition Attendance System for rural schools, addressing attendance tracking challenges; selected for the SIH 2025 Internal Round.

Certifications

- **Microsoft Certified:** Fabric Data Engineer Associate
- **Oracle Cloud Infrastructure 2025** Certified Generative AI Professional
- **Microsoft Certified:** Azure Data Fundamentals
- **Database Programming with SQL** – Oracle Academy
- **Exploratory Data Analysis using R** – NPTEL

Education

Dayananda Sagar University, Bangalore **2024–2028**
B.Tech in Computer Science Engineering (AI & Data Science) *CGPA: 8.5/10*

ISBR PU College **2022–2024**
PCMC (Pre-University) *82%*

De Sales Academy **2021–2022**
High School (ICSE) *81%*
